About Jenni Mitchell

Jenni grew up in Eltham and has been actively involved in the region for most of her life. She began painting lessons at the age of ten at Montsalvat, later graduating from Phillip Institute (RMIT) with majors in painting and printmaking. Further studies include a diploma of Professional Writing and Editing from NMIT and a Master of Visual Arts from Monash University. During the 1980s she traveled overseas working and studying art throughout Europe.

Always a traveller and seeker of wild places to paint and photograph, she has visited regularly the inland regions of Australia; particularly the Flinders Ranges, Lake Eyre, Tibooburra, the Wimmera and the Mallee. The Mt. Macedon bushfires of 1983 were the subject of a major series of paintings recording the destruction and regeneration of the bush over a number of years.

More recently Jenni has been travelling to the Polar Regions working as an artist-in-residence aboard ice-breaker vessels. She has worked in the Antarctic and the High Arctic recording the polar land and seascape in paint, photography, video and the written word.

Alongside the landscape work is the series of '100 Australian Poets Portraits'. The portraits have been painted from life over a number of sittings and include: A. D. Hope, Les Murray, Judith Wright, Dorothy Porter, Chris Wallace-Crabbe, Geoffrey Dutton, Judith Rodriguez, Alex Skovron and Fay Zwicky, Peter Rose and Peter Porter.

Portrait Workshop

The workshop will be conducted over four Tuesday evenings in April.

Jenni will begin the workshop with a talk and visual presentation of her extensive portrait series of Australian poets and extraordinary people.

She will give a demonstration on how to begin a portrait from the model.

Students will then have the opportunity to paint from the model and be guided on a one to one basis.

The workshop is suitable for all students interested in painting the portrait from life.

You may use oil, acrylic gouache or pastel to work.

Jenni will use oil on canvas for the demonstration.

Small class sizes will ensure a more focused learning opportunity.
